

## EBARA JEM 80 PRESSURE SYSTEM

Model	Motor Output kW	Nominal Operating Duty	
JESX M6-P	0.44 kW	45 lpm at 140 kPA	
JEM 80-P	0.6 kW	60 lpm at 200 kPA	
JEM 120-P	0.88 kW	70 lpm at 240 kPA	
JEM 150-P	1.1 kW	75 lpm at 300 kPA	
CDM 70/12-P	0.9 kW	80 lpm at 270 kPA	

The JEM 80 is a presscontrol automatic pressure system. The unit has run dry protection and is 240V.

The Presscontol automatically controls the pump without need for a pressure tank as in traditional systems. It contains an intelligent mix of electronics and hydraulics that monitors both pressure and flow, and protects against dry running.

Pressure fluctuations and cycling associated with the traditional pressure tank system are eliminated.

The pump is not suitable if running a continuous flow evaporative cooler, an additional pressure tank is required at additional cost.

### FEATURES

- > Run Dry Protection
- > 240V
- > 1.5m cable

### SPECIFICATIONS

Part Number: JEM80PC

Price: \$550.00 Plus delivery

Part Number: JEM120PC

Price: \$615.00 Plus delivery
